

# Cycles

FOR WOMEN OF ANY AGE AND STAGE OF LIFE

A safe and sacred space to look at where you might have had your natural unfolding from girl to womanhood interrupted.

Perhaps you feel there are aspects of yourself that may have been lost or forgotten, or where important changes in your life were not honoured.

There may have been times when your womanhood was severely challenged and you feel you need some deep healing or new understanding and wholeness.

**Saturday 13 & Sunday 14 March 2021**

**SOUTH COAST, NSW**

TIME  
9.00am to 5.00pm

Join us in this two-day workshop that explores your relationship to the Feminine archetypes. This is a weekend event for women only and is a quiet contemplative piece in which you create your own level of challenge. This opportunity for self-exploration and discovery is a very personal adventure that provides the space to integrate your particular feminine life journey in all its aspects.

Throughout our time together you are invited to deepen your relationship with change and transition, and to forge a new empowered way of moving forward in your life. This is what some women have said about the weekend ...

*"I reclaimed my strength, my creativity as a mother and discovered a time of innocence that I didn't have before. I came away with a deeper appreciation of my own self and how the archetypes weave in and out of my life."*  
- Caro

*"This powerful weekend helped me easily embrace change I had resisted since I was 19. Wonderful unfolding of some core issues and I have never looked back. Such freedom."*  
- Kat
