BECOME THE LIGHT YOU WERE BORN TO BE

"I learnt daily practices to create an expanded life and an understanding of the reasons why previous goals have not manifested in my life."

- Leah

We invite you to explore the principles of creation and gain a greater understanding of how the mechanics of life actually work to enable you to move into full power and creativity in your unique universe. The ClearFlame training creates a field of exploration and insight which allows you to become clearer about what is important. Participating in this training gives you opportunities to discover the foundations that your life is currently built on and gives you the insights and tools for change.

This training is a result of over 15 years extensive exploring and experience with the work of world renowned teachers, modalities and traditions. The exercises are simple, easy to understand and assimilate. They are non-confrontational with time for integration and personal reflection. Your training will be like no one else's because of your unique templates and mental emotional framework.

Be part of this purely experiential training while you explore your own visions, beliefs and limitations. You will have new tools in which to orchestrate your life. And you will leave empowered to transform and reconstruct your life exactly as you want it.
